PRACTICAL

EXP NO:6 SELECT with various clause – BETWEEN, IN, Aggregate function

AIM:

To view the records from the tables using SELECT commands with BETWEEN, IN, Aggregate functions.

DESCRIPTION:

➤ The BETWEEN operator allows you to specify a range to test. We often use the BETWEEN operator

in the WHERE clause of the SELECT, INSERT, UPDATE, and DELETE statements.

➤ The IN operator allows you to determine if a specified value matches any one of a list or a sub query.

➤ MySQL provides many aggregate functions that include AVG, COUNT, SUM, MIN, MAX, etc. An

aggregate function ignores NULL values when it performs calculation except for the COUNT function.

BETWEEN operator:

SELECT column1, column2, ...

FROM table_name

WHERE expr [NOT] BETWEEN begin_expr AND end_expr;

The expr is the expression to test in the range that is defined by begin_expr and end_expr.

IN operator:

SELECT column1, column2, ...

FROM table_name

WHERE (expr|column_1) IN ('value1','value2',...);

```
mysql> insert into student values(1234,'Avanthika','F','CSE',90),(1235,'Kaviya','F','IT',85),(1236,'Karan','M','CSEAI',98),(1237,'Devi','F','CSE',78),(1238,'Bala','M','ECE',78),(1239,'Suresh','M','IT',88);
Query OK, 6 rows affected (0.05 sec)
Records: 6 Duplicates: 0 Warnings: 0

mysql> select * from student;
+-----+-----+-----+-----+-----+
| RegN0 | Name      | Gender | Department | Score |
+-----+-----+-----+-----+-----+
| 1234 | Avanthika | F      | CSE        | 90    |
| 1235 | Kaviya    | F      | IT         | 85    |
| 1236 | Karan     | M      | CSEAI      | 98    |
| 1237 | Devi      | F      | CSE        | 78    |
| 1238 | Bala      | M      | ECE        | 78    |
| 1239 | Suresh    | M      | IT         | 88    |
+-----+-----+-----+-----+-----+
6 rows in set (0.04 sec)
```

```
6 rows select * from student where Score between 90 and 100;
```

```
+-----+-----+-----+-----+-----+
| RegN0 | Name      | Gender | Department | Score |
+-----+-----+-----+-----+-----+
| 1234 | Avanthika | F      | CSE        | 90    |
| 1236 | Karan     | M      | CSEAI      | 98    |
+-----+-----+-----+-----+-----+
2 rows in set (0.01 sec)
```

```
mysql> |
```

```
mysql> select * from student where Department in('CSE')
;
```

```
+-----+-----+-----+-----+-----+
| RegN0 | Name      | Gender | Department | Score |
+-----+-----+-----+-----+-----+
| 1234 | Avanthika | F      | CSE        | 90    |
| 1237 | Devi      | F      | CSE        | 78    |
+-----+-----+-----+-----+-----+
2 rows in set (0.04 sec)
```

```
mysql>
```

```

mysql> select min(Score) as Lowestscore from student;
+-----+
| Lowestscore |
+-----+
|          78 |
+-----+
1 row in set (0.00 sec)

mysql> select max(Score) as Highestscore from student;
+-----+
| Highestscore |
+-----+
|          98 |
+-----+
1 row in set (0.03 sec)

mysql> select avg(Score) as Averagescore from student;
+-----+
| Averagescore |
+-----+
|      86.1667 |
+-----+
1 row in set (0.04 sec)

mysql> select sum(Score) as Totatscore from student;
+-----+
| Totatscore |
+-----+
|         517 |
+-----+
1 row in set (0.00 sec)

```

RESULT:

The records from the tables are displayed using SELECT commands with WHERE Clause and Pattern matching.
